Press Release

FORMER PRESIDENT OF BEXAR COUNTY MEDICAL SOCIETY CHOOSES HEALTHTEC'S FOXMED™ PRACTICE MANAGEMENT SYSTEM

(*San Antonio, TX*) – HealthTec Software, Inc., a leading provider of medical and dental practice management software, has successfully completed converting the practice of Dr. Robert Jones, former President of Bexar County Medical Society, from a competing system to FoxMed™, HealthTec's Medical Practice Management System. Although HealthTec converts practices nationwide, this makes Dr. Jones' practice one of HealthTec's newest clients in San Antonio, Texas.

After comparing HealthTec Software, Inc. to another local practice management software company, Dolores Capo, Practice Manager, and Dr. Jones, chose HealthTec's practice management product, training, and technical support. "I am very happy the transition was made so smoothly", said Dr. Jones. Ms. Capo added "Our claims have been paid very quickly after the conversion".

HealthTec Software Inc. is a leading supplier of complete, reasonably priced practice management systems for medical and dental practices. These systems, called **FoxMed™** and **FoxDent™**, boast ease of use, yet offer sophisticated financial analysis and claims tracking, seamless electronic claims solutions, complete patient and resource scheduling, efficient transaction posting and more. Although ideal for small to mid-sized practices, these systems are robust enough to handle larger and multi-site practices as well. Both systems use the latest Windows© technology, and offer an easy solution for practice management. These products are serviced directly by HealthTec Software and sold nationally by HealthTec Software as well as through a Reseller Network.
